## Use Guided Access with iPad

Guided Access limits your device to a single app and lets you control which app features are available.

You can use Guided Access to:

- Temporarily restrict your iOS device to a single app

### Set up Guided Access

Tap Settings > General > Accessibility > Guided Access to set up Guided Access. From there, here's what you can do:

- Turn Guided Access on or off
- Set a passcode that controls the use of Guided Access and prevents someone from leaving an active session
- Set whether the device can go to sleep during a session

### Start a Guided Access session

To start a Guided Access session, follow these steps:

1. Open the app you want to use.
2. Triple-click the Home button.
3. Adjust settings for the session, and then tap Start.

### End a Guided Access session

If you're using **Touch ID** on your iOS device, you can use it to end a Guided Access session. First, go to Settings > General > Accessibility > Guided Access > Passcode Settings and turn on Touch ID. Now, when you're using Guided Access, you can end the session by following these steps:

1. Press the Home button once.
2. Use Touch ID.

If you're not using Touch ID on your device, follow these steps to end a Guided Access session:

1. Triple-click the Home button.
2. Enter the Guided Access passcode.
