Use Restrictions on your iPad

Turn on Restrictions

1. Tap Settings > General > Restrictions.

2. Scroll down and tap Restrictions, then tap Enable Restrictions.
3. Create a Restrictions passcode. You need your Restrictions passcode to change your settings or to turn off Restrictions.

Change your Restrictions passcode

To change your Restrictions passcode after you turn on Restrictions, follow these steps:

1. Go to Settings > General > Restrictions.
2. Enter your current Restrictions passcode.
3. Tap Disable Restrictions, then enter your Restrictions passcode again.
4. Tap Enable Restrictions, then enter a new Restrictions passcode.

When you have Restrictions on, you might not see certain apps, features, or services. If you're missing an app or feature, or can't use a certain service, try turning Restrictions off. Also, make sure to check that you haven't removed certain built-in apps.

Apps and features you can restrict

To see a list of apps and features that you can restrict, go to Settings > General > Restrictions. To turn restrictions on or off, tap the slider next to the app or feature.

When you have Restrictions on, you might not see certain apps, features, or services. If you're missing an app or feature, or can't use a certain service, try turning Restrictions off. If you have any of these issues, try turning off Restrictions:

- You don't see an app on the Home screen (like Safari, Camera, or FaceTime).
- You can't use a certain feature or service (like Siri or Location Services).
- You see that a setting is missing or dimmed (like Mail, iCloud, Twitter, and FaceTime).

If you lose or forget your Restrictions passcode, you need to erase your device, then set it up as a new device to remove the Restrictions passcode.
